

# Year 2: Super Sculptures

## Alexander Calder (structure)

Alexander Calder was an American sculptor known for inventing wire sculptures.

## Henry Moore (figure)

Henry Moore was an English artist who is best known for his semi-abstract bronze sculptures. His work is located around the world as public works of art.

**Similarities:** They were both sculptors who produced artworks for the public to enjoy.

**Differences:** They both had their own style and they used different materials to reach their end goal.

## Vocabulary

bond	To join two parts together.
form	A shape that is three-dimensional.
modelling	Making a representation of something.
mould	A hollow piece in a shape.
observation	To create a subject as accurately as possible.
shaping	To give shape and structure to something.
smooth	A flat, even surface.

## Working with Different Materials

We will be experimenting with a range of materials to create artworks from both observation and imagination. Selecting the correct materials is important to make sure that they are suitable for the sculpture we are going to make.

We will be using-

papier mache

clay

straws

playdough

wire

## Exploring Different Techniques

We will explore different techniques to identify which ones are suitable for each material.

mould

form

shape

bond

## What do you notice about their work?

Henry Moore

Alexander Calder
