

Year 3: Music

Reflect, Rewind and Replay

The Pentatonic Scale

The Pentatonic Scale is made up of 5 notes. This type of scale is used most commonly in music from China, but is found in all music from around the world.

Grid Notation

We can use a grid to show a variety of things: which notes to play, how many times to play the note, and to show when the piece begins and ends. The grid can show non-musical symbols or letters to represent the sounds and how they go together.

Recorder notes

The diagram shows four recorder notes: G, A, B, and C. Each note is represented by a musical note on a treble clef staff and a corresponding finger placement on a recorder. G is on the first line, A is on the first space, B is on the second line, and C is on the second space.

Herbert von Karajan in 1938

Born Heribert Ritter von Karajan
5 April 1908
Salzburg, Austria-Hungary

Died 16 July 1989 (aged 81)
Anif, Austria

Occupation Conductor

Vocabulary

conductor	The person who directs the orchestra.
hand directions	Signs representing different notes.
Haydn	An Austrian composer.
narrative	Telling a story through music.

Round

Music that is repeated from different starting points.

The image shows a musical score for a round. The lyrics are: "London's burn - ing, Lon-don's bur - ring. Fetch the en - gines, fetch the en - gines. Fire! Fire! Fire! Fire! Four or wa - ter, four or wa - ter." The score is written on four staves with treble clefs and a key signature of one flat.

Pentatonic Melody

Using the 5 notes of the Pentatonic Scale, we can select an order to play on the glockenspiel. For example:

C E D A G

What is call and response?

The leader, or lead group, plays a musical pattern called 'the call'. The rest of the group respond with a matching pattern or response.

CRC - Article 29: All children have the right to have their talents developed to the full.
