

Communication and Language

This encompasses Listening, Attention and Understanding, as well as Speaking. Language development is essential as it forms part of the basis for all learning and influences later success. Good language skills are a pre-requisite of reading and writing. We want our children to have good attention and listening skills so that they can learn individually and in a group. We want them to understand what is being said to them and follow instructions. It is important for children to be able to communicate their needs and express themselves clearly.

We want all our children to enjoy communicating and learning new words. We place a great importance on playing with the children, getting to know them and helping them to develop their language skills by talking with them at their own level, then extending their vocabulary.

CRC Article 12: All children have the right to be heard.
