

# Expressive Art and Design

This area of learning involves creating with materials as well as being imaginative and expressive. We encourage children to be creative and imaginative, and explore and use media and materials. We offer many opportunities that include painting, drawing, printing and model-making using a range of tools and techniques.

Music and drama involve listening to different sounds, making sounds, singing rhymes and songs, and pretending to be different characters. Children enjoy role play and we also use music, rhymes, stories and puppets to stimulate children to sing, dance or act out roles. Role play is usually linked to the children's interests; we also create different role play scenarios outside too.

**CRC Article 28: All children have the right to learn.**
