# Two-Factor Authentication

## Key Learning Objectives

- ✓ Understand what Two-Factor Authentication (2FA) is
- ✓ Learn how it works and why it is so useful

## Just 4 steps to complete the episode!

1. Watch the short 3-minute animated video with the children. Play it a few times!
2. Discuss the video with the children using our conversation guide to help you.
3. Ask each child to complete the Kahoot! Quiz below.
4. Print the Activity Sheet below as homework for the children.

It is strongly recommended that each episode is delivered by a parent or teacher to children for maximum educational impact.

### Conversation Guide

Useful questions and answers to help you guide the conversation with kids

 We'd love your feedback on this episode

1. Why do you need to keep your information safe online? 

To stop someone from getting into your account and stealing things like your game credit, photos, videos, and other information about you.

2. Do you remember what a strong password looks like? 

3. Ask for an example (they shouldn't give their own personal passwords as examples!). 

4. What does 2FA mean? 

5. Where can you find 2FA in an app or game to turn it on? 

6. What does the word biometrics mean? 

7. What two factors could you use to log in?
