Welcome to your Family Group. 😊

CRC Article 9: All children have the right to a family.

CRC Article 10: All children have the right to see their family if they live in another country.

CRC Article 11: All children have the right not to be taken out of their country illegally.

We are a Gold Rights Respecting School!

CRC Article 9:  
All children have the right to a family.

Learning Objectives:

To discuss and share how families can be different.

To know that all children have the right to a family.

To know that we are all global neighbours.

To look at ways to develop our listening skills.

We are all global neighbours and  
we all belong to **one huge world family.**

Some of our family are near to us, in our class and in our school community. But our global family spreads out across all the countries in the world.

Some members of our global family  
are not able to go to school.

Some of our sisters and brothers are not able to have medicine when they are unwell.

And some members of our global family do not have a safe place to live.

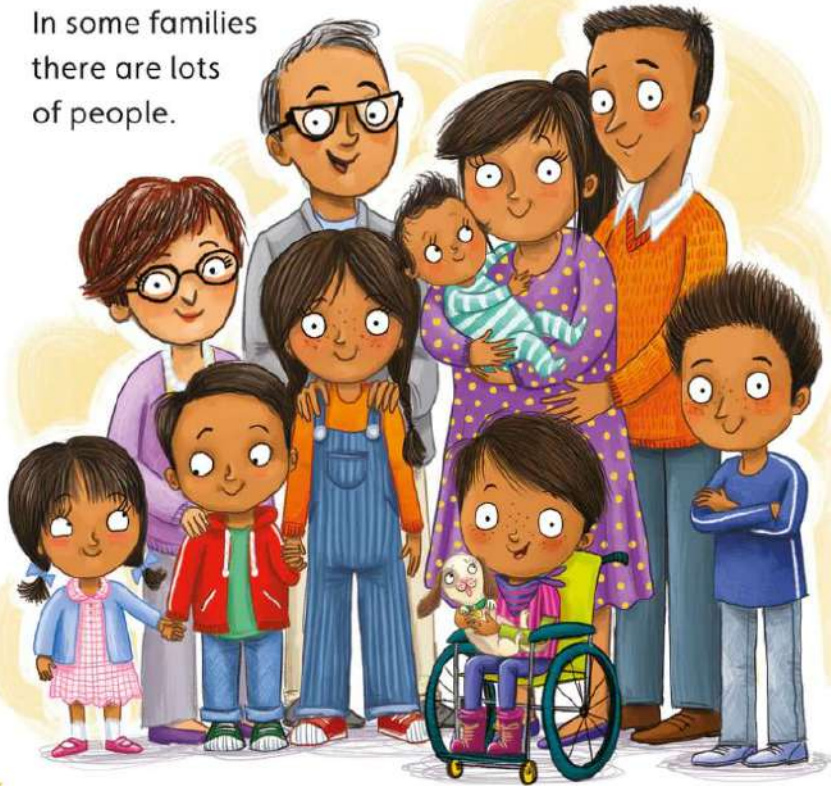

Do you  
think this is  
fair?

# Are all families the same?

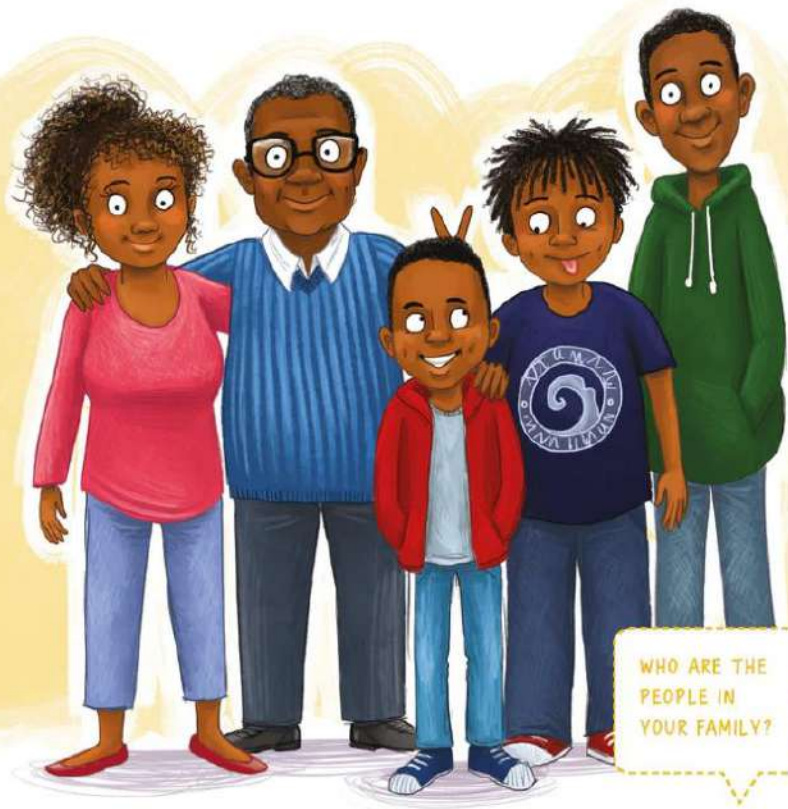

In some families  
there are lots  
of people.

In other families there may  
only be 2 or 3 people.

Every family is different.

My family will be  
different to your family.

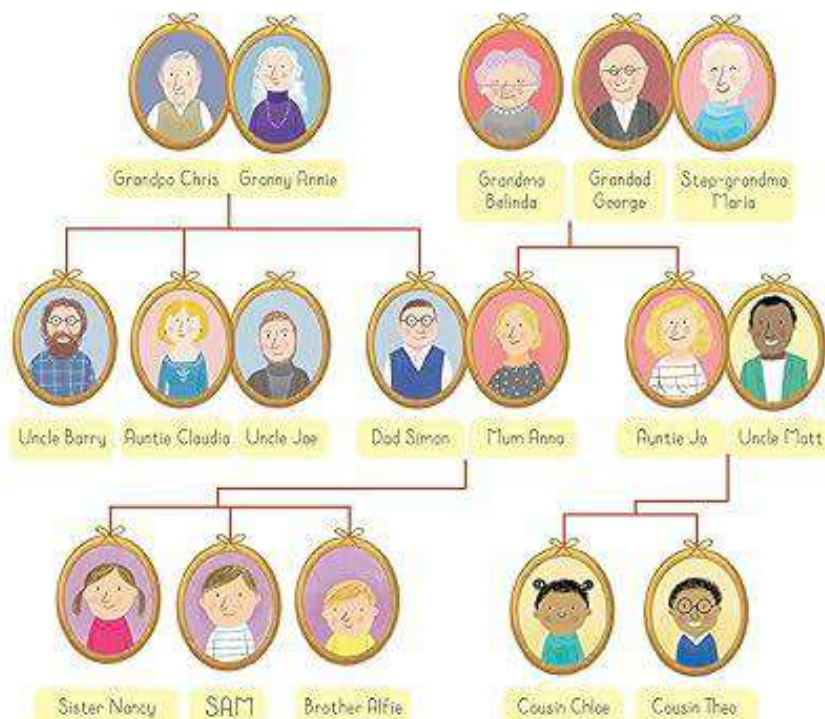

WHO ARE THE  
PEOPLE IN  
YOUR FAMILY?

# A family tree

A good way to show how the people in a family fit together is to draw a family tree. Here's one for a boy named Sam.

Can you draw a family tree?

The people in your family tree are all your relatives and you'll hear lots of different names for them. It's complicated, but if you do want to know these names, this shows how Sam and some of his family are related.

# TASK:

1. Draw around your hand.  
On each finger write one thing you have learned from or love about your own special family.

All of these activities are linked to...

2. In the palm of your hand, draw yourself with the people who look after you.

# Different Values and Experiences

Our world is one big pot of different beliefs, ideas and ways of doing things. Some families have religious practices. Some families work, some stay at home. Some families live in their homes for a long time while some move around a lot. Some families are not biologically related. Some families do not have children. Some families have pets. Some families have more or less money than others. Some families live in cities and some in the countryside. Some families do not look the same or similar. Some families are vegan, which means they don't eat anything from an animal. Some families have different parenting styles.

But, and most importantly, all families are special.

How do you feel good about the uniqueness of your family?
